

# McKenzie Valve & Machining Company

---

## ENVIRONMENTAL POLICY

McKenzie Valve & Machining Company is committed to being a proactive organization with respect to all environmental issues. We are committed to operating our company in an environmentally friendly manner. We have established and are continually improving upon a program that is designed to meet the following objectives:

- ❖ Meet or exceed all applicable environmental laws & regulations.
- ❖ Provide and maintain a safe & healthy workplace for our employees.
- ❖ Manage all materials & wastes safely and responsibly.
- ❖ Minimize the generation of hazardous & non-hazardous wastes or emissions within our organization to prevent or eliminate pollution.
- ❖ Reduce resource consumption through the design of our products, manufacturing processes and within the operation of our facility where possible and economically feasible.
